

Municipal campaigns still run on paper.

Yours doesn't have to. Captured on your phone at the door, not copied off paper three days later.

Every door

in your municipality

0 bars

still logs the door

Form 4

filled as you go

01 Where you've been, and where to go next

Every street ranked by doors, electors and how much of it you've covered — so the next night out goes where the votes are.

02 Supporters who'll say so publicly

Ask at the door whether they'll be named, and take the photo there — each with its own recorded permission.

03 What the doors are actually telling you

Four hundred doors leave four hundred notes nobody reads again. It reads them back: what keeps coming up, and where.

04 A page that doesn't go quiet in September

Set the cadence once. Every slot between now and voting day is laid out with a draft in it. Nothing reaches Facebook until you approve it.

05 Where you stand against the limits

Every contribution against the \$1,200 cap, every dollar against your limit. Filing late costs you the seat until after 2030.
